Preface

The Naval Potential Contractor Program (NPCP) provides an approved means for the interchange of controlled information between Department of Defense (DoD) activities and researchers from qualified firms, universities, and other non-government organizations. Applying for the agreement leads to a security clearance needed for relevant visits to Naval facilities. Also, the agreement serves as a need-to-know certification required for attendance at relevant classified conferences. Agreements are established for a maximum of three years.

Through the NPCP, access is allowed to documents at the Navy Acquisition, Research and Development Information Center (NARDIC), within the Office of Naval Research in Arlington, Virginia, which is the central point where Naval research and development planning and requirements information is available. Information is also available from other Naval and defense activities, including the Defense Technical Information Center (DTIC).

This program is designed for both potential contractors and current DoD contractors seeking information in areas not covered by contracts. The information enables these contractors to:

1. discover and assess Naval applications for their current and planned products and services, and
2. plan future Independent Research and Development (IR&D) efforts to synchronize with stated Naval requirements.

Specifically, the NPCP provides access to classified and unclassified scientific and technical information concerning Naval needs, requirements, programs, accomplishments, advance planning, and funding associated with research, development, and test and evaluation. Access is based on the need-to-know required to conduct a project or study at no cost to the Government. The potential contractor is required to invest company discretionary resources to support the collection, review and application of the received information to an identified study/project/course of action associated with the maintenance or establishment of capability as a developer and producer of military technology.

In turn, the process provides Naval industrial base for effectively responding to the opportunity to integrate contractor research to establish technical support for future systems.

Thank you for your interest in the program. Please be sure to review and follow up.

Naval Potential Contractor Program: Section 1

Eligibility

Firms, individuals, and universities (referred to here as the NPCP applicant) with a demonstrated capability of performing research and development with a reasonable potential for eventually receiving a contract with a Naval activity are eligible to participate in the NPCP. This includes U.S. companies under foreign ownership, control, or influence when the foreign involvement has been negated and the company maintains a valid facility clearance in accordance with the provisions of the National Industrial Security Program Operating Manual (DoD 5220.22-M of Jan 95). Qualified non-government activities choosing to participate in the NPCP will enter into a policy agreement with an appropriate Naval activity.

Although participation in this program is available to all potential contractors, it is specifically aimed to assist those who do not have an active DoD contract but have a current or potential capability to perform work of interest to a Naval activity. Participation will be granted after an evaluation of capabilities (experience, personnel, facilities) is made, and a policy agreement is executed.

How to Acquire An NPCP

Agreement Necessary forms and this Application Guidebook are available at the NARDIC web site at <http://www.onr.navy.mil> (ONR Keyword: NARDIC). Click on Naval Potential Contractor Program (NPCP).

If you are reading a paper copy of this guidebook, forms are in Section 7. Follow instructions in this guidebook for selection and completion of the appropriate forms for your organization's information access needs.

Please note that the same person must be listed as the Principal Investigator on DD FORM 1498, block 20c; as the Data Custodian on DD FORM 2345, block 3a, and as the Attention Name on DD FORM 1540, block 4a. The forms are 1 shown on the next page.

Naval Potential Contractor Program: Section 1

How to Acquire An NPCP Agreement (Cont.)

2. A company, university, individual, or other non-government organization (referred to here as the applicant) interested in an NPCP agreement should first match its capabilities to a specific Naval research and development activity, laboratory, or systems command (referred to here as the sponsoring activity), which establishes the agreement. To facilitate the correct match, Independent Research and Development (IR&D) and NPCP points of contact (POCs) are listed at the web site of the Navy Acquisition, Research and Development Information Center (NARDIC) at <http://www.onr.navy.mil> (ONR Keyword: NARDIC). Most often, the NPCP POC also performs the role of NPCP Manager who has NPCP final signature and approval authority. These POCs will help match the applicant with a relevant, technical POC (referred to here as the responsible individual (RI)) at the sponsoring activity. Also, an RI may initiate a request of his/her Naval activity to establish an NPCP agreement with the applicant.
3. Complete DD FORM 1498 and the NPCP Policy Agreement as instructed in this guidebook. DD FORM 2345 and DD FORM 1540 are optional; please read sections 5 and 6 to determine if these two other forms are applicable to you. **Completed forms must not contain classified information.**
4. Send all completed forms to the Naval activity sponsoring the agreement.
5. The application will be processed according to the following procedure:
 - a. The NPCP Manager will track and maintain control of the registration process.
 - b. The RI specified on DD FORM 1498 (block 19c) will accept responsibility for the actions covered by this agreement and confirm the need-to-know for classified information and for participation in classified meetings and events.
 - c. The security office at the sponsoring activity will interface with the Defense Security Service to ensure appropriate clearance requirements are met and identified in a DD FORM 254 generated by the security office and attached to the approved NPCP agreement.
 - d. The NPCP Manager will approve and sign the agreement.

- e. A dated copy of the completed agreement will be returned to the principal investigator of the applicant organization as notification that

Naval Potential Contractor Program: Section 2

After the Agreement is Established

An NPCP agreement will be in effect for a maximum of three years.

An NPCP agreement cannot be renewed. A new NPCP registration package must be submitted upon completion or termination of the old agreement. Access to NARDIC and DTIC that is based on this agreement will also expire at the end of this agreement.

The NPCP agreement participating organization (NPCP-APO) must provide an annual progress report. This information is to be entered on DD FORM 1498. The form is available at <http://www.onr.navy.mil> (ONR Keyword: NARDIC). Click on Naval Potential Contractor Program. The agreement may be canceled if reports are not submitted.

Written notification of any changes to the NPCP-APO name, address, principal investigator, responsible individual (RI), security status, project, etc., must be sent to the NPCP Manager.

All documents are to be requested via proper channels from the RI, NARDIC, DTIC, or the library of the sponsoring activity.

DD FORM 1498 - Technical Effort and Management System

DD FORM 1498 is used to define objective(s) and approach, and to report progress.

The form, described in detail on the following five pages, consists of 25 sections.

DD FORM 1498 is required at the start of each NPCP effort and annually thereafter, until the project is completed or terminated.

Do not use continuation pages. DD FORM 1498 must stand on its own.

DD FORM 1498 must not contain classified information.

All patents and inventions shall be reported.

NPCP Policy Agreement

A Policy Agreement is required at the start of each NPCP project.

This form officially records your participation in the NPCP program. The agreement establishes the following:

1. the conditions under which the Naval sponsoring activity will provide the NPCP-APO access to Government documents needed for the NPCP project;
2. that the materials furnished are not to be construed as a request for proposal, as a commitment from the Government to issue a contract, or as authority for the NPCP-APO to incur expenses in anticipation of a Government contract, or as a basis of claim against the Government;
3. that the NPCP-APO will perform the efforts/study documented on DD FORM 1498; and
4. that the NPCP-APO will furnish annual progress and completion information on the objective(s) undertaken.

The following steps describe how to fill out the form.

DD FORM 2345 - Militarily Critical Technical Data Agreement

DD FORM 2345 is required for access to export-controlled information (i.e., information containing militarily critical technical data).

Even if approved to view SECRET information, the applicant cannot view export-controlled information without a certification number from the Defense Logistics Information Service (DLIS).

PRIOR TO FILLING OUT THE FORM: determine if your company already has

certification to access export-controlled data. Check internally, access

<http://www.dlis.dla.mil/jcp> or call DLIS at (800) 352-3572.

TO APPLY:

- 1. If the applicant is a company, attach to the form a copy of the incorporation certificate, business license, sales tax payment, or federal identification number.**
- 2. On DD FORM 2345, the Data Custodian name entered in block 3a must be the same as the PI on DD FORM 1498, block 20c, and as the Attention Name on DD FORM 1540, block 4a.**
- 3. Please note, although the form provides the DLIS address, send it with the other NPCP application forms to the NPCP sponsoring activity.**

The information on the following three pages complements the instructions furnished on the reverse of DD FORM 2345.

The DLIS will review the DD FORM 2345 within about five working days and either approve the application, return it because of insufficient information, or initiate rejection action if the submittal does not meet the eligibility requirements.

DD FORM 1540 - Registration for Scientific and Technical Information Services

Complete the DD FORM 1540, which is required for access to information at NARDIC and from the Defense Technical Information Center (DTIC). For more information on the products and services available from DTIC, see <http://www.dtic.mil>.

Although DD FORM 1540 is a DTIC form, you must return it to the Naval sponsoring activity, which enters the NPCP agreement number and the U.S. Government approval. The back of the form defines access privileges to DoD-held information. The Naval sponsoring activity will forward the DD FORM 1540 to DTIC, which will send a user code to the NPCP-APO.

The following two pages describe how to fill in Sections I and V, which are the only sections to be filled in by an NPCP applicant. Subcontracting under the NPCP program is not allowed.
